

SentinelWeb Security Report

Generated: 2026-08-31 16:50:15 UTC

Report range: 2026-08-31 to 2026-08-31

Summary

Attack findings	WAF requests	Allowed	Blocked
25	25	0	25

Attack distribution

Attack type	Findings
Cross-Site Scripting	9
Prompt Injection	8
SQL Injection	8

Risk findings and mitigation

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00001; request ID: 1; component: body; method: hybrid

Mitigation: =1+1

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00002; request ID: 2; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00003; request ID: 3; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00004; request ID: 4; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00005; request ID: 5; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00006; request ID: 6; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00007; request ID: 7; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00008; request ID: 8; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00009; request ID: 9; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00010; request ID: 10; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00011; request ID: 11; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00012; request ID: 12; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00013; request ID: 13; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00014; request ID: 14; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00015; request ID: 15; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00016; request ID: 16; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00017; request ID: 17; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00018; request ID: 18; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00019; request ID: 19; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00020; request ID: 20; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00021; request ID: 21; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00022; request ID: 22; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00023; request ID: 23; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00024; request ID: 24; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00025; request ID: 25; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

This export is truncated at the configured bounded report-entry limit.
