Risk findings and mitigation

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00001; request ID: 1; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00002; request ID: 2; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00003; request ID: 3; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00004; request ID: 4; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00005; request ID: 5; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00006; request ID: 6; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00007; request ID: 7; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00008; request ID: 8; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00009; request ID: 9; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00010; request ID: 10; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00011; request ID: 11; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00012; request ID: 12; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00013; request ID: 13; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00014; request ID: 14; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00015; request ID: 15; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00016; request ID: 16; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00017; request ID: 17; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00018; request ID: 18; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00019; request ID: 19; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00020; request ID: 20; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00021; request ID: 21; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00022; request ID: 22; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00023; request ID: 23; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00024; request ID: 24; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00025; request ID: 25; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00026; request ID: 26; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00027; request ID: 27; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00028; request ID: 28; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00029; request ID: 29; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00030; request ID: 30; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00031; request ID: 31; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00032; request ID: 32; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00033; request ID: 33; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00034; request ID: 34; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00035; request ID: 35; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00036; request ID: 36; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00037; request ID: 37; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00038; request ID: 38; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00039; request ID: 39; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00040; request ID: 40; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00041; request ID: 41; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00042; request ID: 42; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00043; request ID: 43; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00044; request ID: 44; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00045; request ID: 45; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00046; request ID: 46; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00047; request ID: 47; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00048; request ID: 48; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00049; request ID: 49; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00050; request ID: 50; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00051; request ID: 51; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00052; request ID: 52; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00053; request ID: 53; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00054; request ID: 54; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00055; request ID: 55; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00056; request ID: 56; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00057; request ID: 57; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00058; request ID: 58; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00059; request ID: 59; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00060; request ID: 60; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00061; request ID: 61; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00062; request ID: 62; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00063; request ID: 63; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00064; request ID: 64; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00065; request ID: 65; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00066; request ID: 66; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00067; request ID: 67; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00068; request ID: 68; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00069; request ID: 69; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00070; request ID: 70; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00071; request ID: 71; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00072; request ID: 72; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00073; request ID: 73; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00074; request ID: 74; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00075; request ID: 75; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00076; request ID: 76; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00077; request ID: 77; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00078; request ID: 78; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00079; request ID: 79; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00080; request ID: 80; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00081; request ID: 81; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00082; request ID: 82; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00083; request ID: 83; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00084; request ID: 84; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00085; request ID: 85; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00086; request ID: 86; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00087; request ID: 87; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00088; request ID: 88; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00089; request ID: 89; component: body; method: hybrid
Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
Correlation: phase6-00090; request ID: 90; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00091; request ID: 91; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00092; request ID: 92; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00093; request ID: 93; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00094; request ID: 94; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00095; request ID: 95; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00096; request ID: 96; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00097; request ID: 97; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00098; request ID: 98; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00099; request ID: 99; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00100; request ID: 100; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00101; request ID: 101; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00102; request ID: 102; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Cross-Site Scripting - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00103; request ID: 103; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

Prompt Injection - risk 92 (Critical), confidence 0.97, action blocked

Correlation: phase6-00104; request ID: 104; component: body; method: hybrid

Mitigation: Apply parameterized queries and strict input validation.

SQL Injection - risk 92 (Critical), confidence 0.97, action blocked
